CANADIAN PACIFIC RAILWAY OFFERS SWINE CLUB PRIZES

The Provincial and Dominion Governments have co-operatively organized the Canadian Pacific Swine Club throughout the three Western Provinces. The Canadian Pacific Railway Company offers as a prize a trophy to each of the three clubs on C.P.R. lines, consisting of two Boys' and Girls' Swine Clubs meeting in Manitoba, Saskatchewan, and Alberta.

In addition, the winning teams (members of Clubs using C.P.R. lines) will be invited to the 1927 Royal Agricultural Winter Fair at Toronto next November, as guests of the Canadian Pacific Railway Company.

These three cups will be competed for each year, and each cup must be won three times by one club before it becomes the permanent possession of the club. In recognition of the accomplishment of winning, individual members of team, medals will also be awarded annually to be retained by them.

Canada's position in the markets of the world as a profitable hog producing country will be governed largely, if not entirely, by the type of hog which Canadian hog producers adopt. The Canadian Pacific Railway Company has provided a trophy for the most effective teacher, and has decided to continue the award of these trophies for the purpose of further encouraging the production of the approved type of hog.

At the first meeting of the National Committee for the commemoration of the Diamond Jubilee of Confederation a formal organization was carried out and officers elected.

Among the suggestions made as to the form the celebration will take are the following:

Public commemoration and festivals. 1—Address on Confederation the past and the future, in local gatherings, with broadcastings of speeches by men of national prominence.

The organization of a pageant of Canadian history, Ottawa, and of similar pageants in the provincial capitals with reproduction in moving pictures.

4—Musical festivals.

5—Sports field days; air shows, picnics, and other forms of recreation.

6—Lighting of bonfires in every community from coast to coast on the night of July 1st.

7—Ringling and broadcasting of new cartoon in Parliament Memorial Tower on the 150th anniversary signal to be given by His Majesty.

Educational features:

1—Exercises in every school in Canada in May and June, essay competitions.

2—Publication of historical works, and reviews of progress in various branches of Canadian life and activity since 1867, including reviews by government departments.

3—Exhibition of pioneer ways of life.

4—Circulation of portraits of Fathers of Confederation and other pictorial souvenirs.

5—Issue of commemorative postage stamps and medals or badges for school children; special issue of silver coins for sale at more than face value, to be used to defray expenses.

Other suggestions were endorsement funds for annual awards for literature, art, scientific research, and invention.

DEATH OF DEAN PAGET

The Very Rev. Dean Paget, who has been ill for several months, passed away at Calgary early Sunday morning.

Dean Paget was closely associated with the history of Calgary for about 25 years, and was dearly beloved by the citizens of Calgary, and throughout the Province, and respected by people of all denominations.

He was privileged to live to see the debt-free day the Pro-Cathedral and Paget Hall wiped out, which he accepted as a pleasing tribute to his work in the diocese.

The late Dean was a great admirer of Bishop Sherman, and had no little part in the election last October.

He was sadly disappointed that he would not be present at the recent consecration.

Mr. and Mrs. G. H. Patrick, of Strathmore, were very intimate friends of the late Dean Page.

The funeral service will be conducted at the Pro-Cathedral, Calgary, on Friday afternoon, after which the remains will be shipped to Shanty Bay, to be interred at the side of his two sisters.

BOW VALLEY AS A WINTER RESORT

Editor, Strathmore Standard—

My first words in this article is proof of how Valley is to contribute to you the success of The Standard as a country weekly.

Sugar beets are only 80 per cent water, according to the latest and as there is plenty of water in Bow Valley, we should discuss best raising in a series of meetings next winter. We would like to suggest Bill Tierney, president of the Bow Valley Farmers' Association, to speak at one of our meetings to arrange a committee to discuss best raising of meetings for next winter to discuss sweet peas, clover, mulberry trees, silk stockings, maple sap rubber production, banana culture, sex in bees, dogs, the infidelity of women, etc., etc.

I think you are giving the people of Bow Valley one of the liveliest, most pleasant country papers published in the province, and we should be proud of the Standard and anxious to help keep it up to its present excellence.

I was greatly interested in the article in last week's Standard on the tourist prospects for Bow Valley. It is one of the most interesting areas known to hold meetings in a warm room in the midst of winter, and talk about flowers, blossoms, honey and bees and imagine it sounds like a dream. I think that should be my friends who are in development Bow Valley as a winter resort in this way.

With one of our prominent ex-mayors warming his feet at Calgary, radiators and other prominent citizens away in the sun, we have been arranging the lady contestants for the Catalina channel swim, it certainly behoves those of us remaining at home to develop our district as a winter resort. There is altogether too much local money going into the idle and questionable pleasures of Calgary and California.

I hope that by next winter we may hold a series of meetings to develop our tourism and winter sports. We must do something to hold our population at home. If these bumper crops and bumper prices for wheat are going to continue, our beautiful district will be depopulated for six months of the year.

With two hundred new Hungarians settling coming to Alberta this spring, there will be the added perfume of goulash and goulash to the spring fragrance in Alberta. And with all the moisture in the summer rainfall, there should be a lush growth of quack grass for a while.

PROVIDES FOR TAX ON
FUR EXPORTATION

OTTAWA—Third reading was given in the House of Commons to a bill amending the Northwest Territories Act and empowering the commission-er-council to enact a tax or royalty for a tax on exportation of furs.

Hon. Charles Stewart, minister of the interior, who sponsored the measure, declared that the tax was necessary to prevent all pelts in Canada from being considered exports for the Northwest Territories. For upwards of 250 years furs have been exported from the territories. At the present time the quantity of fur secured in the territories, said Mr. Stewart, was valued at

THE WHEAT POOL

Saskatoon Western Producer: The farming industry and the entire business of the West has been revolution-

ized in the space of four short years. Theory has become fact. The Wheat Pool is an established fact. It is a fact that the establishment and development of the Wheat Pool of Western Canada are the most prodigious achievements ever accomplished by farmers anywhere. Contracts for a further period of five years from 1927 will be signed in the near future. It makes it beyond all question that the Pool will continue in existence for another five years. The blackest drought that ever destroyed a crop would be a trivial disaster compared to the discontinuance of the pooling method of marketing grain.

This team was later sold to a man from Bow Valley who purchased it at auction and shipped it east. Animals in good condition brought very good prices. Some were not brought out by the owners when they saw what the buyers required.

The regular meeting of the Baintree Community Club was held last Thursday at the home of Mrs. Wm. J. Bell. There was a good attendance of men, women and several visitors from all over. To the usual social gathering of the roads, previous plans for card parties had to be dropped, and a local entertainment will be attempted for the present time. The club sat down on a scale of moderation in Rockyford on Saturday, April 16th. The ladies in this district who are busy putting the finishing touches on their Easter dresses, will not need to worry about finding them at a variety of choice places offered at reasonable prices. Mrs. Harry Petersen is convenor of the committee in charge of this event, and her assistants, Mrs. Bell and Mrs. Longbottom. Final arrangements were made for the annual Easter Bonnet Nightingale on Friday, and a committee chosen to make plans for a big vaudeville entertainment to take place in May. Mrs. P. J. At a meeting of the town council on March 24th, a petition was presented, signed by one hundred percent of the merchants of Rockyford, asking that Wednesday evenings be an early closing day, with the exception of even where a public holiday falls. A by-law was passed to that effect.

The roads in the districts are greatly improved, and all directions. The road running north from Rockyford is badly cut up for want of drainage. It is a great pity that when the first miles of this road was laid last year, there were no culverts placed.

Great indignation is being felt in the Rockwood Valley School district in that seems to be a lack for Alexander and another far more exacting one for the ordinary people, in that they are compelled to pay taxes on land out of the school district and put it in another, and so make the burden of taxation heavier on what remains.

As long as these people are allowed all these unnecessary exactions, there is no justice in the way in which the tax collector goes about his business.

The politicians are greatly bent on getting re-elected, and so the election of such, we shall always have isolated foreign settlements in our midst. It is a great pity that in this country is good enough for some people to make their home in, and exploit to their own advantage, it is good enough for them to become citizens of it in the fullest sense of the word.

Miss Bert Erwin, who are we sorry to report, been somewhat taken by the weather during the past week. She however, steadily improving, and will be able to return to her work at the office in the course of a few days.

The implement dealers are busy men these days, setting up new machinery for the spring rush. Indications show that there is an ever growing tendency among farmers to buy their equipment to hire, than to buy outright.

General News

The Canadian Pacific purchasing office located at Sicamous, B.C., spent more than \$100,000 in 1926 for Okanagan products. Fifteen years since such purchases amounted to but \$5,000.

With the fisheries of the province of British Columbia running to \$21,000,000 annually—or half the Canadian total—numbers of enquiries are being received from financial interests in Eastern Canada and the United States, with a view to spying out business opportunities.

Until the problem of truck competition is solved satisfactorily, will affect, according to T. E. McDonald, Vice-President of the Canadian Pacific Express Company, in a Toronto address recently before the Transportation Club. He said: "This old man who was a twin, always enjoyed splendid health; upon his birthday he was congratulated by a tuxedo, who also remarked that it was his 100th birthday. The old man said, 'I'm not 100, but I'm still good for another 100 years.' The railway and express companies are operating under very unfair conditions."

For the second time in three weeks the stock has paid a visit to a Canadian Pacific passenger train. Yesterday on the Imperial Limited going eastward, however, the passenger between Vancouver, B.C., and Revelstoke, Mrs. Olson was on the way to the time of the Revelstoke hospital. Railway officials and employees did all in their power to get her to the hospital. Telegraphic dispatches from the hospital state that both mother and son are doing well.

What happened to your stenographer?"

"She left. She caught me kissing my wife."

She: "What disgrace shall I wear for the fancy dress ball? Can't you give me an idea?"

Husband: "Why not go as a woman?"

Betty: "Have you been reading anything lately?"

Husband: "No, I haven't been sick."

Mike's appearance attracted the attention of a kind-hearted old lady. "What's troubling you, my little man?"

"Dyspepsia and rheumatism."

"Why you poor dear," she sympathized. "I've seen that before."

"Get kept in after school," because I couldn't spell them."

Fred: "I suppose you I haven't spoken to my wife for five weeks?"

Tod: "Don't worry, old man, your turn will come next."

"Billings is dead. Did he leave much?"

I think not. His heirs all seem to be on the best of terms with each other."

Bill Wilkinson: "I must report you to the Consulate for kissling your wife on Sunday."

Young Man: "But this isn't my wife!"

Bill: "Oh, pardon me."

Vincent: "But the teacher wants me to bring in a sentence using the word 'tradition'."

Jim Moran: "Tradition is something handed down from generation to generation."

And Vincent wrote: "My pants are a tradition."

Mrs. Blank: "Did a package come for me today?"

Mrs. Blank: "Yes here it is. It seems that it's pretty big for that package you ordered."

Mrs. Blank: "Mercy, no it isn't the shirt."

The Spring weather is keeping busy daily with its attendant trials of domestic friction.

"Pony" Grogan commanding this danger, recalls a domestic battle which occurred in the home of one of his friends. "You know," he said to his wife, "you used to tell me I was your queen."

"When a man finds his queen has stepped on the hands of a pain he has to be very careful, he can't break his tobacco jar as a receptacle for varnish, and that his best briar pipe has been utilized for the purpose of hammering tacks, he begins to see the advantages of a republic."

It was at a revival in a Southern church that one oblate soul stoutly resisted the elder's exhortations.

"Yo' see its day is up, Eldah," Ah's done his best to make him realize that his Ah's gwine smah shirn on ovah mabuh when Ah gets to Glory."

"Dat ain't no problem," retorted the Eldah.

"Yo' problem is how gwine

it along without habing yo' shirt scorched."

HEARD ON THE STREET

Percy Parish was walking down the street with Bill Tierney, and pausing to look up at the starry sky, remarked with enthusiasm: "How bright Orion is to-night!"

"So that's O'Ryan, is it?" replied Tierney. "Well, thank goodness, there's one decent Irishman in heaven to welcome me!"

Patient: "I say, doctor, seems to me I'm getting thinner all the time."

Doctor: "Nonsense, my boy, just recollect for one moment how much I saved you in forbidding you wife spending a winter in California."

Bill Wilkinson was named after an old man who had been a local lad, reached the age of a hundred years. This old man who was a twin, always enjoyed splendid health; upon his birthday he was congratulated by a tuxedo, who also remarked that it was his 100th birthday. The old man said, "I'm not 100, but I'm still good for another 100 years."

IS IT POSSIBLE TO KEEP HIGHWAYS OPEN?

The Standard, some time ago suggested that the Provincial Government should add an additional tax to save the roads and maintain the use of the funds to keep the main highways open and in good condition for winter use.

The Government have decided to put on an additional tax, but there does not seem to be any pronounced endeavour to make use of it for this particular work.

The farmers who own automobiles are usually too busy during the summer months to notice the condition of the newly cut highways, and during the winter season, when he has the time, the roads for a considerable period are in such a condition that he cannot use them owing to the ice.

Local merchants suffer heavy losses in carrying stocks for much longer periods, which materially increases the cost of doing business, and in many cases goods have to be carried by land during the winter season, and then sacrificed owing to some slight change in style and model.

In Eastern Canada, where the snowfall is much greater, motor traffic was kept interrupted.

It would be better to keep their right of way open for regular traffic.

It is not possible for some method of cooperation between the government and the municipalities, and the towns to be arranged, whereby such a service might become possible without the same being too burdensome upon the ratepayers.

TIME FOR ACTION REGARDING BIG STAMPEDE

The rumor has been current that there is a possibility that Major George Housley, has given the matter some attention, and it is hoped that his personal intervention will be enforced, that the beginner, especially the peddler, will not be prevented from selling his wares.

SCHOOL CHILDREN'S
SPORTS FOR
EMPIRE DAY

The Strathmore School Board, through the Chairman, Mr. Joseph French is endeavoring to perfect an organization for a school children's Sports Day on Empire Day, May 24th.

The idea is to give the children a good time, and at the same, instruct them in the meaning of Empire Day, and all for which the British Empire stands.

A request is being made that each of the local organizations will sponsor and assist in developing this movement.

First by developing a real patriotic spirit among the children of the surrounding districts and towns together, and also aid in creating a real community spirit.

The organization has been formed and the children are asked to the Municipal Hall and listen to an address upon Empire Day, engage in singing patriotic songs, to be followed by a grand march to the school grounds, where the sports should take place.

Interest has been very healthy in accord with these suggestions, and has consented to come to Strathmore and render any possible assistance towards making Empire Day a success.

The suggestions are splendid and should receive hearty support and endorsement of each and every citizen.

MONTANA BEE KEEPERS ASK FOR INSPECTION LAWS

The honey production in Alberta has made remarkable progress during the past few years, and experienced bee men are quite convinced that the honey business in this province is but in its infancy.

The province of Alberta, blessed with an abundance of sunshine, cannot fail to eventually become the banner province of the dominion in the production of honey, and will soon be covered.

The provinces that lead in the production must necessarily also lead in the matter of producing honey, if the people but avail themselves of the opportunity.

throughout the entire twelve months.

Please note that only a little over three months will intervene until the usual date of the annual event will have arrived.

The securing of a suitable date for the exhibition is quite important in the matter of attracting entries from the high class contestants.

The making of such changes takes time and thought, and could only be done after a great deal of consideration had been thoroughly discussed from every angle, in consultation with the representatives of the people from the districts which would be vitally interested.

Mr. H. J. McLean, the new school board, for Strathmore will become a necessity, and such a time would seem to be opportune to have plans well laid to meet conditions that are surely coming.

Health of Children
IMPORTANT FACTOR
IN COUNTRY'S GROWTH

In less than twenty years the children of today will be shouldering our national responsibilities.

Parents are urged by physicians to give ultimate care and attention to the physical development and nourishment of their children.

When properly nourished the youthful body enjoys a sturdy growth, and the mind becomes alert.

The child who starts off to school after a good breakfast, has far greater advantages in school than the child in whom the breakfast is carelessly skipped. Give your child a good breakfast, eat with porridge, eggs, milk, well known doctor, "And you give your child an opportunity to do his or her best work, and make good marks in school."

The Department of Food Research of the Robin Hood Mills, Limited, manufacturers of Robin Hood Porridge Oats and Robin Hood Rapid Oats have made a study of child nutrition. They have found that mental and physical growth is aided to a great extent by encouraging children to eat liberally of Porridge Oats.

Mothers who appreciate the importance of time saving now use "Rapid Oats" in quick cooking. This has helped to bring up the Robin Hood Mills. "Rapid Oats" builds vitality, increasing the normal development of the child and assures the country of a higher type of citizenship in years to come.

Bill Teamey and a Hebrew were walking along when a baby years ago lay down at Mary's Bed. Bill stopped, killed a single vesse, which, not being enough for two, they decided to keep till the next morning, and the ones having the most pleasant dream was to have it. And what did you dream?" asked Bill. "I dreamt that I was born again in heaven in a basket, and I never before was so happy." Upon the Hebrew concluding his dream, Bill exclaimed: "Jabberwocky ye soin' and thought ye wouldn't be awake, in I up and ate the moon myself!"
